

Finally!!! An economic stimulus package! All of our worries are over!!.....

Well we wish this was a true statement. However the reality is that our government, both state and federal, are under pressure to do something about healthcare in America.

At the Federal level coalitions are currently being formed to introduce legislation that would create a government-run health plan that would be an alternative to the private sector offerings. This puts pressure on Sacramento to produce a bill that would complement and improve the federal proposal.

Ask yourself this question. "Do I really want the State of California legislators to craft a health plan for **my** customers?"

This is the dilemma we face. Decisions will be made. Change will take place. CAHU must maintain a seat at the table where these decisions and changes are made. Because of this: ***OUR PAC IS MORE IMPORTANT TODAY THAN EVER BEFORE.***

Here's a quick look at the landscape in which we find ourselves:

"The business atmosphere we find ourselves in is a competitive, ever-changing climate. The U.S. Department of Labor reports that one out of every four employees working today has been there less than one year. One out of two have been there less than five years. Technology is increasing at an exponential rate of speed. Former Secretary of Education, Richard Riley, said that the top ten jobs in demand in 2010 did not exist in 2004. New technical information doubles every two years, which means for students starting a four-year technical or college degree half of what they learn in their first year of study will be outdated by the beginning of their third year of study."

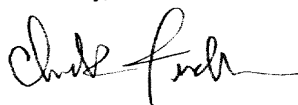

Change is all around us. We need to be involved in all health insurance changes. The way to do this is to be an ongoing contributor to our PAC. Your monthly contribution of \$10 or more demonstrates your interest in your industry and strengthens our position with legislators.

DON'T HESITATE – DON'T DELAY!

Please go to www.cahupac.org now and make that contribution or complete the form on the reverse side and fax or mail in now.

"For evil to prosper good men have to do nothing." Edmund Burke
