

January 2008

I want to start by saying thank you for your past contributions to the CAHU PAC. Without your support we could be in a very different position than what we are facing today.

2007 has been a pivotal year for the CAHU PAC. Not only is our contributor base growing but our connections with lawmakers and candidates are also growing in frequency and impact.

However, we remain in uncertain times. Our livelihood is still very much threatened by what could possibly be damaging Health Care Reform legislation. ***Now is the time to unite with your CAHU brethren and be a part of the solution.***

Last year you chose to make a one time contribution. Unfortunately, we have not been consistent in reminding you of the last date you made a contribution, so we have changed our procedure and we plan to send you a reminder every year from here on out. We appreciate your past support and we will do our best to show value for your contribution and be sensitive with the legislative distributions that are made. The future is bright, but that reality can only be secured if ***everyone*** does their part.

Simply said, return the contribution form on the reverse side of this letter or visit www.cahupac.org and make your contribution today. A one time contribution of \$1,000 or an investment of \$85 a month makes you a Diamond contributor. Your commitment today will allow us to continue to beat the drum for reasonable reform that ensures the health of Californians and our businesses.

Sincerely,

A handwritten signature in black ink, appearing to read "Chuck Trogdon". The signature is fluid and cursive, with the first name "Chuck" being more prominent and the last name "Trogdon" written in a smaller, more connected script.

Chuck Trogdon
CAHU PAC Chairman
