

CAHU PAC One Minute Message

CAHU California's Health Benefit Specialists

Chuck Trogdon
VP of PAC

Greetings CAHU PAC Chairs & Chapter Presidents:

Below is the November One Minute Message that I hope you will share with your chapter members. This can also be printed in your monthly or periodic newsletters.

The Storm is approaching.....Our message these past few months have been related to the oncoming storm of Health Care Reform. Health Insurance reform, if you will.

The storm is approaching was our theme.....well the storm is now upon us. The theme will now change to read "How to protect your income during a Hurricane"

November 2009 - One Minute Message

Health Care reform is now in fact a reality. The end of doing business as usual has just changed course. The wind has started to blow and the rain has started to fall. The eminent Hurricane now has the potential to do the damage it had been predicted to do.

That's the bad news, now the good news. You can help us fight back the damage this hurricane is surely about to inflict on all of us.

Once the final touches have been made the Health Care Reform bill crafted by Congress will go on to the President's desk for what will be a landmark signing, the law will be recorded and handed down to the STATES who will now have to figure out what to do with it.

Yes, the STATES (California) will have some say as to what do with this new legislation and they will be granted the ability to shape some parts of the legislation as best they feel fits their population. Some things will be mandatory but there will be plenty of areas California can make adjustments. Some adjustments may be worse than the bill in its current form. We hope to make some areas better but we can't do that without access to key legislators in our state.

Your PAC contribution has never been needed more than now. NEVER MORE THAN NOW!

If you are a carrier representative, work for a large agency or an independent agent you have the obligation to make a PAC contribution now or be silent as the Government takes over our livelihood.

Don't be a bystander who wakes up one morning and see's the hurricane has destroyed everything he had built up for years and say "What just happened, I didn't even know the storm was coming let alone prepare for the devastation of a hurricane"

Your PAC contribution is your preparation, your way of fighting back the hurricane.
www.cahupac.org, that's the website so take 1 minute and make your contribution now.

The Hurricane is at the door!

Chuck
